

PACIFIC REGION TRAINING FUND

RULES

- To access training a member must have 1500 hours worked in the non-destructive industry for a signatory company.
- If you currently hold no other CGSB certification then you must have completed Grade 12 or equivalent to be accepted for training. Your application must be accompanied with written proof of completion (i.e. transcript).
- You will be expected to complete the written and practical tests for CGSB or CNSC after the course.
- If you have previously taken courses through the Training Fund, proof of CGSB completion must be supplied before further training can be accessed.
- All training must be pre-approved by the Trustees before courses are taken. Unless the Training Trustees specifically put on a course you will be expected to pay all fees and expenses up front and be reimbursed upon proof of completion from CGSB.

We would encourage the members who have taken training to complete the CGSB exams as we are starting to see a shortfall in ticketed technicians. When the building for the 2010 Olympics commence, we believe this will demand more technicians and in particular CWB inspectors.

Attached is a request form for N.D.T. Training. We will look at putting on training this winter if we have enough eligible members applying.

NDT REQUEST FORM

PACIFIC REGION

Request for courses can be faxed back to 604-526-5472 or
emailed to metaltrades@telus.net for consideration
